

Chimney damper

FEATURES

- Block chimney airflow
- Energy & cost saving
- Extremely tough yet flexible material
- Reusable design
- Available in a range of shapes & sizes
- Easy installation
- 5 warranty

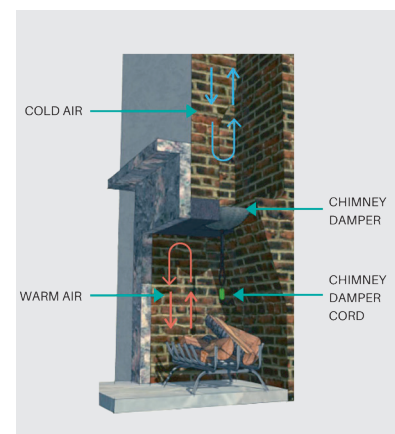

CHIMNEY DAMPER

SUITABLE FOR A RANGE OF CHIMNEY SHAPES & SIZES

The ERS Tech Chimney Damper is a reusable felt based draught excluder, designed to stop cold draughts and heat loss, reduce outside noise disturbances and stops debris from falling down the chimney flue.

In cold climates, the damper is designed to block cold air from entering a chimney and prevents warm air from leaving the home. In warm climates, it prevents hot air from entering and retains cooler air-conditioned air.

Available in a range of sizes and shapes, the Chimney Damper is designed to fit a range of chimney flue styles, and can be removed and refitted by simply pulling and reinserted via the damper pole.

SPECIFICATIONS

Model	Size
ERS-ASCH-3050	30*50CM
ERS-ASCH-4080	40*80CM
WARRANTY	5 Years
